Located in the middle of the forest, in the northern area of the Capital - Baneasa, this 4-room property will take your breath away!

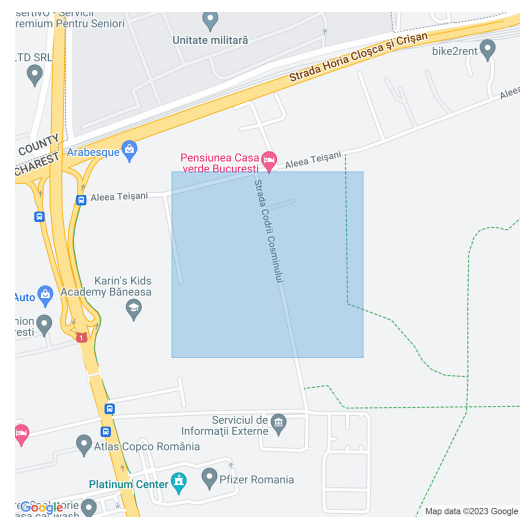

With an incredibly generous usable area, 288 sqm, the property is part of a building built in 2002.

The location and the gorgeous terraces of the property will give you an extraordinary ambience every day. Spread over the entire 1st floor of the boutique building to which it belongs, the property fully benefits from a circular orientation that allows natural light to bathe the property throughout the day. The interior partitioning is extremely adequate, the day area being well delimited from the night one.

The solid wood flooring, the crystal and marble lighting objects combine harmoniously with the new ceramics in the kitchen or bathroom area, resulting from the renovation process at the beginning of this year.

The living room is distinguished by its spaciousness, and the discreet chandeliers and the modern fireplace do nothing but enrich the sumptuous air of this house. The 3 bedrooms are flawless, the kitchen is fully furnished and equipped, and the 3 bathrooms (one of them being a service toilet) are equipped according to the highest quality standards. Also, the apartment has terraces of about 100 sqm, the main one facing to the south and the courtyard of 2000 sam.
